

# EXTENDED TOP HAND CONCERT G CHANTER

TWICE FULL SIZE WHEN PRINTED AT A4

©Mike Nelson 20/01/11

*This drawing shows the dimensions for spreading the top 3 finger holes apart so as to make the playing of concert pitch chanters easier by the chubbier finger.*

*The dimensions shown here are from memory of the last 15 key concert G chanter currently being played by Alice Burns.*

*I will check and update these dimensions when I am next near her chanter or finish another one.*
